

WeeEngage

Training others in planning simple parties with a significant impact and *engaging* in the lives of those in their communities, neighborhoods, & schools.....

Did you know that you can have a huge, eternal impact in the lives of those right at your back door? Your school? Your community? One of the last things Jesus said before He ascended into heaven was to "Go and make disciples." Sometimes that seems like a hard thing to do or maybe you think, "That's for missionaries. I could never do that!" God has given Tricia a tremendous heart to tell others the Good news of Jesus Christ. While she has traveled thousands of miles globally to take this message to others, she has found that God actually calls us to **ENGAGE** in the communities in which we live!

Tricia takes practical ideas and transfers them into hosting parties with a significant impact...an *eternal* impact! Listen to her share her passion with years of experience of hosting children and their parents in her home. Tricia will take you through a step-by-step process of planning, preparing, and hosting your own **simple party with a significant impact**.

♥ Testimonials ♥

I have had the privilege of knowing and ministering alongside Tricia for over a decade...With her warm and friendly demeanor, she quickly connects with adults and children alike - and people are immediately drawn to her. I would highly recommend Tricia's program as a way to thoughtfully and respectfully engage with others in your neighborhood and community.

-Kurt Nelson, President, East West Ministries, International

"Tricia is a woman of great character, dependability, and integrity. Her love for Christ, proven leadership skills, and genuine warmth is infectious while she consistently maintains a wonderful passion for people. Her creative approach in ministry outreach will provide you with a tactful, engaging way to connect with parents and their children within your community."

-Ross Robinson, Operation Christmas Child, Samaritan's Purse

After attending a training session with Tricia I hosted a Christmas outreach for my son's second grade class. I was overwhelmed with the response from students and parents. We had some in attendance who had never heard the gospel before. My heart was filled with joy to be part of such an experience bringing the Good News of the gospel right to my neighbors. Tricia's training gave me the tools and confidence I needed to be obedient to Christ's call to "Go and make disciples". I highly recommend her training on hosting a party with a purpose.

-Diane Daugherty, Mother of two, The Colony, TX
